Welcome

Welcome to this year's female and bull sale celebrating our fiftieth year of dedicated breeding to Angus Seedstock where we will be cataloguing our largest ever offering of females since establishment in 1965.

With numbers at capacity and the intended sale of one of our Drillham properties 'Sandlewood Grove', to cater for the purchase of grazing land in the south at King Island, we will be selling nearly 350 head within 179 lots.

Genetically different to the mainstream Angus genetic base this sale will showcase a large line up of Angus cattle that will give both commercial and stud breeders the opportunity to access animals suitable for a number of varying breeding purposes.

Within the lots there will be numerous females selling that stem directly from the original foundation cows purchased in 1965 with the Doris and Burnette cow families dominating the line-up. Direct Hoff Scotch Cap import females also sell.

To cater for the commercially minded cattlemen twenty-one lots will sell 155 head as pen lots with 2-10 females selling per pen with over half of these selling with calves (bulls & heifers) at foot.

Following the females there will also be twenty-one Angus Bulls selling. The first of these are Hoff Scotch Cap import sires Raff Emblem E69 and Raff Emperor E106 who have been used with success within the Raff's stud breeding program. Two more used sires follow - Raff Hero H255 (a Raff Explosive E108 son out of Raff Empire E269's grand-dam) and Raff Horace H13 (a son of Raff Empire E269 out of a full Hoff import female). The remaining bull lots comprise of ET sons to our carcass sire O'Neill's Prime Star 80, maternal sire O'Neill's Legacy and direct sons of Raff Empire E269 also sell. All are of high quality, are fully performance recorded and are quite typical of Raff Angus bulls offered at our annual bull sale in September.

With general breaks in seasons in large areas of Queensland and an incredibly optimistic prediction of very strong cattle markets these next few years this sale gives any cattleperson the opportunity to invest in animals that are backed by fifty years of intense selection criteria from a family owned business based off integrity and common sense cow knowledge.

This year we will not be holding a pre-sale open day due to the management of such a large offering. However we invite anyone to start inspection of sale lots on the morning of sale day Monday February 16th from as early as 8am. However if earlier inspection is required then be sure to contact us.

The sale will start at 12 mid-day and will be interfaced with AuctionsPlus. Phone bidding will also be available. Sale day management will be conducted by GTSM with settlement by Raff Angus.

REBATES / DISCOUNTS to both Agents and Clients

5% rebate will be paid to all agents that attend who purchase with or on behalf of their clients and settle within seven days of sale date.

2% rebate will be paid to all agents introducing clients that purchase but not accompanied by them to the sale. A written introduction must be received by the vendor 48 hours prior to the sale and accounts must be settled within 7 days of sale date.

1% discount will be available to all buyers who settle personally and pay in full on sale day. Electronic bank transfer and EFTOS facilities will be available on the day of sale - Visa & MasterCard. In this case the 5% agent rebate is not available.

ONLINE BUYER REGISTRATION

Save time on sale day and pre-register online

Pre-registering is simple

- Go to www.gtsm.net.au and click on Online registration Form
- Fill in your details and submit the form
- Pick up your buyers card on sale day

Pre-registration closes 24 hours before sale day.

Registration will still be available on both the Open Day and Sale day

**For any queries or problems with online registering please
contact - Marion Glasser 0418 122 799**

SALE INFORMATION

Registration Status

All females and bulls selling within lots 1-147 and 159-179 are either HBR (Herd Book Registered) with a green tag or APR (Angus Performance Registered) with a yellow tag. Those with white tags are HBR animals that resulted from embryos imported from cows purchased at the famous Hoff Scotch Cap dispersion sale in 2006. Females selling within lots 148-158 were registered at some stage in their life.

Animal Identification

All females and bulls are freeze branded with the 'bench axe' symbol, year letter and number. A near side ear tag has the animals ID, year letter and number. The off side ear has the NLIS tag. Lot numbers will be paint branded on animals on sale day.

Performance Information

A supplementary sheet will be available on sale day detailing up to date pregnancy status for the females and weights etc for the bulls.

For genetic Condition Status, updated EBV's and Breedplan notes please refer to the Angus Australia web site where this can be accessed - www.angusaustralia.com.au

Health Treatments

Full vaccination details will be detailed on the supplementary sheet.

Breeding Soundness Examination and Semen Test

All bulls have undergone a thorough examination by Dr Ced Wise to check their physical structure and breeding anatomy both internally and externally. All bulls have produced viable semen using the crush slide testing procedure.

Inspections

An 'Open Day' will be not held the day prior to sale day however if inspection is required before the sale be sure to make contact.

On sale day all females and bulls will be penned ready for inspection from 8am on the morning of the sale. For safety concerns no children are allowed within the pens.

Refreshments

Lunch and refreshments will be available on Sale Day with the compliments of the Raff family.

Delivery

All animals will be available for delivery immediately after the sale - no animals will be loaded during the sale. "Mundibulanga" is in a tick free area and cattle are free to move interstate. Local livestock carriers Mick and Kathleen Moffatt will be handling all of the transport and delivery arrangements - Mick - 0407 658 194 Kathleen - 0427 545 302 Home - 0746 658 154.

Successful purchasers are free to use any carrier of their choice but all details must be given to Kathleen, who will be in attendance sale day within tent beside office, at the conclusion of the sale.

Female Joining Status

All females with current PTIC status were ultrasound scanned by John Chapman of SEQ Genetics on the 22nd December 2014. Mating details for each lot were corresponded to age of foetus. If any calves born fall outside those dates listed be sure to contact us for details of other joining sires. It is advised to DNA sire verify calves born to sire Raff Joker J33 as several break outs of neighbouring Raff Angus yearling bulls occurred during his joining period. Animals of Joined status will be ultrasound tested prior to sale with an updated supplementary sheet available several days prior to sale day.

Photos

Photos of individual lots will be available at www.raffangus.com.au within the last weeks prior to auction day and also on AuctionsPlus.

Guarantee

In the unlikely event of a bull proving totally infertile or incapable of natural service within 6 months of purchase, provided it is not caused by injury or sickness after the fall of the hammer, the vendor agrees to provide the purchaser with a satisfactory replacement if available or issue the purchaser with a credit equal to the purchase price minus salvage value that may be used at the next bull sale.

Insurance

We strongly encourage successful purchasers to insure their bulls for death, injury or sickness. Generally the highest risk for any mishaps occurring is within the first six month period from purchase date while the animals are transported, adjust to their new environment and settle into their new animal groups. There will be an insurance representative available on sale day for all of your insurance requirements.

Disclaimer

We pride ourselves on our upfront, honest and sometimes critical appraisal of our cattle. We are always happy to provide assistance to those seeking guidance and our opinion. However the final decision will always be that of the potential purchaser. The partners of Raff Angus are not in any way responsible for the final result or performance of any resulting purchase outside of our guarantee. "All reasonable care has been taken by the vendor to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor or the selling agents make no other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information."

AuctionsPlus

Auction prices at this sale are live online and will be interfaced with the physical auction. A computer is used to bring the real time "on property" prices to your internet screen for those who have registered as AuctionsPlus bidders to follow. Online bidders can place a bid on their computer and the result is immediately transferred to the person on property controlling the device - then on to the auctioneer. Bidding is only available to registered AuctionsPlus users. We recommend registering online as soon as possible if you wish to use the facility and become familiar with the sites operation. We have undertaken to use AuctionsPlus as an additional option - we will still operate phone bidding. It has been put in place in order to make it more convenient for our clients to secure their selected animals. You must register at least 24 hours prior to the sale on - www.auctionsplus.com.au

Phone Bidding

Phone bidding facilities will be available on sale day. For those wishing to purchase 'sight unseen' we are happy to assist with selections by offering an unbiased and honest assessment of the animals. Those purchasing, that have discussed their selection with the vendor, are offered an unconditional money back guarantee if the purchaser is not satisfied with their purchase within seven days of taking delivery however the purchaser will incur transport costs. It is essential to make contact with your preferred agent or the vendor prior to the sale to ensure that contact can be made on sale day.

RAFF EMPIRE E269 is a 10th generation Raff bred bull that traces back to our foundation cow Sarum Doris 19th purchased in 1965. His 3rd dam is sired by Raff Ultimate U27 who sold for \$30,000 privately which we bred from the great Burnette family that is a direct descendant of the great Forres Burnette A22 matron. We consider Empire to be the greatest bull we have ever bred. During his show career he clocked up over 20,000 kilometres in trucks going to shows where he won eleven Inter-breed Supreme Beef Exhibit titles including the Dubbo Beef Spectacular and Melbourne Royal Angus Feature Show. He was also the Grand Champion Angus Bull and Supreme Angus Exhibit at the 2012 Sydney Royal Show and at his final showing at Rockhampton Beef 2012 was the Grand Champion Angus Bull. Empire is an amazing bull that is super active and services cows naturally with ease.

 IDEAL 4465 OF 6807 4286
 E E 4286 OF IDEAL 2240 1254

For years Raff Angus have been on the lookout for a carcass sire that was of similar genetic lines to their breeding program but most importantly of true outcross genetics to the mainstream carcass sires of Australia. 'The intense selections over the past decade for a low Birth Weight, low Mature Cow Weight and high Marbling animal has resulted in not only a change of phenotype but more so the extreme narrowing of the Angus gene pool.' Andrew Raff remarked.

The grand-dam of Stewie, Ideal 4465 of Ideal 6807 4286, features in the Americans 'Angus Legends' book and is described as "The Angus breeds feed-efficiency matriarch with more than \$2.5 million in progeny sales." Both the sire and dam of Stewie were bred by two of the most commercially

focused herds the Ruffs have ever visited in the USA - the Van Dyke herd in Montana and the Jorgenson herd in South Dakota.

Stewie D19 was a participant within the Angus Sire Benchmarking Program - Cohort 1. Typically animals not linked by pedigree to highly used carcass sires do not have good data until progeny are in the system. Stewie, now a rising six year old, with actual carcasses now assessed has at last had his breeding potency for specific traits recognised with his paper performance now truly reflecting his individual breeding ability. He has more progeny assessed from actual carcasses hanging on the hook than other highly used AI sires within his cohort that have more than 5000 progeny recorded. 'His EBV information has improved the right way round. So

often sires are used within the industry with good carcass paper data that has been created simply based off a mid-parent assumption' Andrew commented. 'We know Stewie's maternal line excelled for those traits and at last - four years later - he has been recognised.'

In the purchase of Stewie Raff Angus refuse to suggest that they are joining the mainstream path of selecting for extreme marbling. 'Breeding cattle for one target market is not what our program is about. We still maintain that weight, both daily gain and carcass, is the ultimate driver of profitability.'

Whilst he is very high for Marbling Stewie is also a trait leader for Days to Calving, 400 Day Growth and Carcass Weight.

Females sell PTIC through his natural service.

REFERENCE SIREs

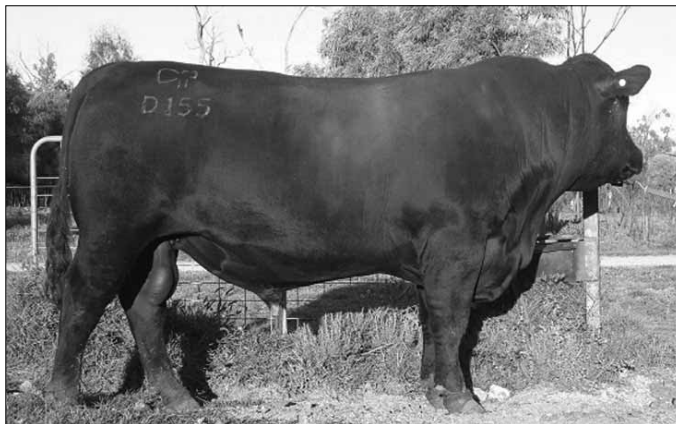

RAFF DAKOTA D85 is a very long bodied and kind natured stud sire that has been used with success as a yearling. He is a genetic ¾ brother to the highly used Hoff Limited Edition SC594. The dam of Dakota has bred some magnificent cattle for us with many of her sons already leaving outstanding progeny within our program. Leading sire Raff Explosive E108 and our best matron Raff Blackbird F14 are all from the same dam - Hoff Blackbird 5217. Dakota is now no longer with us so his genetics are now considered valuable.

RAFF DIPLOMAT D155 was retained from his group and used as a yearling that year. His natural fleshing qualities and muscle expression combined with his integrity of pedigree made him the sensible choice for within herd use. His dam was out of a full sister to Raff Ultimate U27 and was sired by a full brother to one of our leading carcass females and donor - Raff Doris X169. To get consistency of progeny you have to use animals with years of proven pedigrees - Diplomat had just that. He was sold in 2010 for \$15,000.

RAFF DISTINCTION D197 must be considered one of our better bulls resulting from our USA Hoff embryo project. With so much power, substance, volume and capacity Distinction really is an amazing beef bull. He is as wide based a sire as you could find with excellent feet and legs with length and strength of spine. He has incredible width and depth of hindquarter that usually you would only find in Euros. Like all Moriah sons he has a wonderful disposition. You truly have to stand behind him to admire his extreme width of hip and pin - something that all of his progeny inherit. Now 6 years old he is perfectly sound in every aspect. If you are looking to breed cattle for the lucrative grass fed market Distinction is the bull to use. You can view Distinction working in the paddock on video at www.raffangus.com.au

RAFF DALLAS D216 is a magnificent Papa Equator son with extra neck extension and smoothness of shoulder captured from his prolific embryo producing dam Hoff Lady Durham. From birth he was a standout and was the heaviest bull calf at weaning from all 2008 born calves. At just 13 months he weighed 670 kg's with an EMA measurement of 100sq cm, scrotal of 40cm and IMF% scan of 6.0%. His full flush of eight siblings made history to become the highest IMF% reading group to average 6.3% as yearlings. Dallas went on to be the 2010 Brisbane Royal Show Grand Champion Bull and later placed second in the Interbreed Award. At the Adelaide Royal Angus Feature Show, where he weighed over 1200 kilos with an IMF% of 7.0%, he was awarded Reserve Senior Champion Angus Bull. His progeny are all of a kind - strong topped and heavy weighing with style, bone and substance.

RAFF DEFENDER D218 is another direct son of our leading Hoff cow Moriah 822 and flush brother to the \$21,000 and \$18,000 high selling bulls at our 2009 Bull Sale and to our stud sire Raff Distinction D197. He is beautiful bodied, frame 7 bull with near perfect structure and a kind disposition. He stamps his type on his progeny as they calve easily, have plenty of growth and are easy doing. Defender was sold to Paul and Faye Land in Victoria after three seasons in the Raff herd for \$14,000.

REFERENCE SIRES

RAFF DYNAMITE D345 sold to a partnership of Steve Hayward & Kellie Smith Old and Irelands Angus NSW for \$18,000 at our 2011 sale. He is a magnificent beef bull that weighs heavy, has excellent skin type, extra bone, great capacity and overall balance. The performance data on Dynamite is exceptional being moderate for birth weight, explosive growth, adequate milk, big scrotal and EMA with massive carcass weight and retail beef yield - all the traits that make money. He is a full brother to used sire Raff Dazzler D353 and the Brisbane Royal Show Interbreed Champion Female Raff Blackbird D349.

RAFF DAZZLER D353 is a unique and most complete performance sire for raw data, EBV's and MVP's. He is a low birth weight bull with explosive growth, massive scrotal, carcass weight and eye muscle area. His MVP's have him ranked highly for tenderness, with excellent feed efficiency and better than breed average for marbling. Sired by Papa Equator from our great Hoff Blackbird 5217 makes Dazzler a flush sister to Raff Dynamite D345 who sold for \$18,000 at our 2011 sale and the Interbreed winning show cow Raff Blackbird D349. The sheer red meat capacity and fine skin type complement Dazzlers' performance. We sold him to Myanga Angus and has since been replaced by a full genetic brother we have purchased from Stoney Point Angus, Keith SA at last year's sale.

RAFF DICTATOR D364 is a massive 64 inch son of Hoff Lady Durham by the old breed legend Leachman Prompter. His athleticism, carriage and little bit of arrogance - the way he prances around the paddock - has earned him the title 'the thoroughbred stallion'. His progeny weigh heavy and have the extra neck extension and lovely shoulder setting of himself - his daughters are making wonderful cows. We consider this bull a real 'purpose' sire and will continue to use him to breed us some cows.

REFERENCE SIREs

RAFF DUKE D367 is a powerful, thick and deep bodied bull that has a wonderful disposition - his depth of heels and foot structure is excellent. He is one of six sons of the great Hoff Moriah 822 we have retained for stud sire duties. Moriah progeny are all incredibly consistent - big and powerful with excellent structure and temperament. We regarded the Shady Brook Prime cows in the Hoff dispersal as the best sire group in the sale. Duke is a full flush brother to Raff Flash F187.

RAFF ENTICER E66 is sired by the breeds leading maternal sire TC Dividend 963 - a bull the famous TC Ranch in USA was reintroducing into their herd in 2008 to breed some cows despite of him being first used over twenty years ago - this proves that good genetics never date. Enticer E66 is a power bull with extra neck extension, is upstanding with vigor. We have full sisters in production and they are all neatly made and honest in type. His progeny are well made and exhibit all the desirable qualities of their sire.

RAFF EMBLEM E69 adds to the amazing of battery of sires that Hoff Moriah 822 has produced for us. Sired by Limited Edition's sire Hoff Charger 242 - Emblem again has the power and volume lacking in so many Angus today. It would be hard to change his confirmation to make it any better. His calves are of a type while his flush sisters are really great, easy doing females. Emblem is such a safe and predictable sire. He sells as lot 159.

REFERENCE SIREs

RAFF EXPLOSIVE E108 is one of only a handful of Connealy Danny Boy sons in Australia. He is a massive bull that typifies what a Raff bull should be displaying with phenomenal growth, extreme length and capacity, great neck extension and shoulder set. He was sound on his feet and legs with a powerful head and strength of jaw and prowled the paddock like a cat while maintaining his condition at the completion of a season. We unfortunately lost Explosive from injury but will continue to use him through AI and have retained outstanding sons. Explosive E108's performance is 'explosive'. As his semen supply is limited his progeny will be scarce.

RAFF ENCORE E110 is a ¾ brother to Emperor E106 and combines what we believe to be the best modern day cow Hoff Moriah 822 with our favorite old cow Leachman Lass 1004 - the power of the pedigree really shows through here. To sustain a viable cow herd sooner or later the breed is going to need these reliable tried and proven genetics that breed bulls with power and capacity and cows that have shape and constitution. Encore is an upstanding individual, smooth through the front, wide through the back end and has a wonderful nature. He sold at our bull sale last September when weighing over 1300 kg's.

RAFF EXTERMINATOR E201 was a standout from birth that is producing a wonderful line of daughters. His extreme length and strength of spine sets this bull apart from any of today's modern sires. His full flush brother was sold for \$18,000 at our sale several years ago when at 25 months he weighed 1,152 kg with an EMA of 147cm, 17/15 mm fat, 6.1% IMF% and a 44cm scrotal with a 7.9 frame. We have a full sister to him also that is breeding the house down.

REFERENCE SIREs

RAFF EGO E266 is another Hoff Blackbird 5217 son by a bull we found at the last AI centre we visited in USA on our last visit - O'Neill's Expedition. Ego is very strong topped bull with extra softness, fine skin type and doing ability with a tight sheath and pizzle. His MVP for Tenderness is outstanding. A flush brother sold to Irelands Angus Stud with a flush sister undoubtedly the most powerful "F" heifer for that year. All of his sisters are proving to be remarkable breeding females. Ego has been used extremely successfully on heifers. He has the unique ability to moderate his progeny yet improve docility, structure and length. This sire is one that we will use for many years on both heifers and large framed cows.

RAFF EQUATOR E304 is a powerful individual who we leased back for a season after selling him in 2011. His dam was the most bid on female at the Hoff Scotch Cap dispersion sale and true to Doug Hoff's words she bred amazingly to any sire we mated her to. This Equator 2928 son will add bone, weight for age with extreme muscle and yield for a British beef animal. A full brother was even more powerful than him selling to Tasmania as the 2011 high selling lot.

RAFF FRODO F117 was retained from the 2010 drop not only because he was a big weight gainer but he was reported as an elite carcass sire through HD50k for Angus whilst he individually recorded one of the highest IMF% scans for his year of 7.0% at just 14 months of age - 12 months later after two joining's he returned to record 7.2%. He ultimately injected marbling without the sacrifice of weight and pedigree.

REFERENCE SIRES

RAFF FREDDO F143 was retained to replace his brother Raff Encore E110 who was sold to Denis Davey of the Jondaryn Angus Stud. Freddo is a big athletic bull with a wonderful shoulder set and neck extension. He is sired by the tried and proven sire Leachman Prompter whose dam Leachman Lass 1004 rates as one of the all-time most influential breeding cows. Freddos direct dam Hoff Moriah 822 was the most bid on and third top selling cow at the famous Hoff Scotch Cap Angus dispersion sale in 2006. We expect this sires daughters to be special.

RAFF FRANCO F153. There is absolutely no need to use a black euro of any breed to inject weight and yield into your program when there are Angus bulls like this. From birth Franco has been a meat machine. His dam is a magnificent breeder that excels for docility and maternal attributes whilst his sire needing little introduction as he produced one of Australia's most acclaimed show bulls in recent decades Raff Empire E269. Franco's raw data excels for weight for age and he visually expresses a revealing jump muscle so rarely seen in British cattle. He stood Reserve Senior Champion at the 2012 Rockhampton Beef Spectacular to Raff Empire then was again awarded that same title at the Brisbane Royal Show.

RAFF FORTUNE F344 was used for two seasons before being sold at our 2013 sale to the Wilkinson family at Guyra. He is sired by our calving ease and marbling specialist Raff XFactor X3 who we bought back for those reasons whilst his mother is a flush sister to the magnificent Raff Blackbird D349 - the 2012 Brisbane Royal Interbreed Champion Female. His progeny are moderate and easy doing that exhibits their sire's carcass qualities marbling and softness.

REFERENCE SIRES

RAFF GOVERNOR G426 is a very long and smoothly made sire that combines two of our best show Champions that we have ever bred here at Raff Angus. Governor was the calf at foot when his dam won the 2012 Brisbane Royal Show Interbreed Champion Female. We used him on heifers successfully despite his high birth EBV with his calves averaging just 34.6kg.

RAFF HORACE H13 has been used for several breeding seasons. His dam is a full sister to Raff Equator E304 who we leased back for one season in 2013. He is sired by Empire E269 making his pedigree a beauty as it combines the best Raff maternal with the power of Hoff. From a very young age Horace has carried more bone than most with good head carriage, docility and weight for age. He now also sells as lot 161.

REFERENCE SIRES

RAFF HERO H255 stood out at birth, weaning and through to point of sale when his brothers sold. We kept him as we wanted another Explosive E108 son added by the fact that his dam is also the grand-dam of Raff Empire E269. Hero has twice the capacity and substance of many of today's high carcass cattle. He has always been extremely placid in nature and large in stature. His calves are born easily and show great style. He now also sells as lot 162.

RAFF CAVALIER C36 was re-introduced after both his full sisters proved their fertility worth now recording their sixth calf at 357 and 361 day calving intervals. We have been using him on the Hoff import females as his sisters have been breeding extraordinarily well to their Hoff brothers ... just the other way around. Cavalier is all maternal, both top and bottom, within his pedigree. He recorded the 4th largest EMA and the 5th highest IMF% of 6.3 within his group combined with one of the higher fat measurements.

RAFF X-FACTOR X3 was purchased back into the herd as an aged bull after topping our 2003 bull sale. He is one of our highest IMF% scanning bulls as was his dam Doris V9 and his flush sister. X-Factor is incredibly potent at breeding high marbling cattle from even moderate IMF cows. We retired him at ten years of age after many seasons at Piliqa NSW where he was first sold and over 100 progeny calved down here. We will keep his semen on ice as he could be a sire we may use selectively in the future to add fat and marbling without compromising pedigree merit.

ROSSANDER BLACK THUNDER A191 was purchased at just 11 months when we were on the road inspecting a number of southern herds in 2006. He was a great looking bull as a youngster that grew out to be extremely easy doing bull with a moderate maturity pattern. He was used heavily from a young age and always proved to be a good calf getter with a high service load. We have some ideal daughters in production.

CAMDEN VIEW BLACK DOUGLAS V3 was a bull that we simply had to purchase at one of the last National Show and Sales at Wodonga. Sired by the original Scotch Cap 14 Black Douglas V3's true worth is on his dam's side. Premier Julie was imported by us from the USA within one of the last shipments allowed out of the country in the mid 1980's. She arrived with Premier Commodore with the mating between them later starting the now well-known Duchess cow family. V3 was as sound a beef bull you could want.

REFERENCE SIRES

BANQUET TIME FRAME Y135 was leased after he became the Australian record priced bull selling for \$50,000. We liked his extra frame, structural soundness, kind nature and his impressive genetic package. His daughters have extra capacity, beautiful udders and a great temperament.

MERRIDALE GOLD LABEL Y157 was purchased in partnership with the Banquet Stud for \$18,000 top price at the 2004 Merridale sale. He was an awesome bull - big in stature, sound in structure and kind in nature - Gold Label was so wide he could not fit up the loading ramp to take him to the local show! His pedigree might be a bit old fashioned but this bull had so much to offer, so much power, such balance and so athletic for such a big bull. One of his first sons, Raff Brutus B225, topped our 2006 sale selling for \$12,000.

RACOVOLIS HO ROAD V16 was a tremendous beef bull displaying outstanding mobility and muscle expression. We regret having never collected from him as his daughters have continued to be some of our most consistent breeders even after many years since his passing. We purchased him at the same sale when we selected Black Douglas V3. This bull was hard to fault.

REFERENCE SIRES

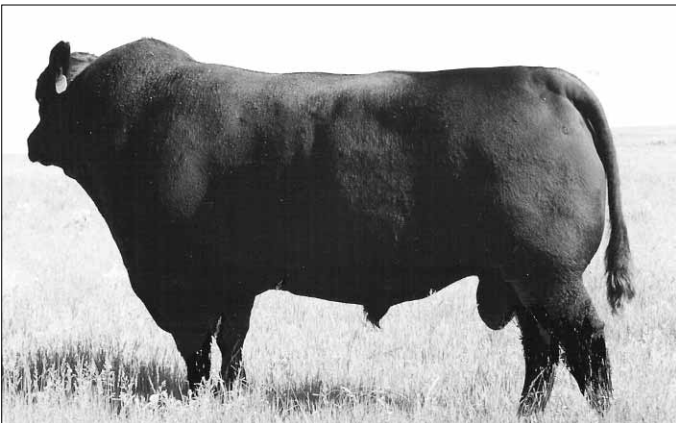

HOFF LIMITED EDITION SC594 has grossed in excess of \$1.5 million dollars from both progeny and semen sales. Never before have we had a sire that has made such a within herd impact as this bull. In 2004 we purchased the Australian Semen Rights on him from Doug and Molly Hoff in South Dakota. His first sons sold at auction in 2006 selling to a top price of \$32,000. His progeny had more bone and muzzle, weight for age and shear volume than most sires of his time. When we went to the famous Hoff Scotch Cap Dispersion Sale in 2006 we saw him sold as an aged sire still incredibly sound and active. At that sale we were so impressed with his grandmother, Starlette 3V9, that we bought her and later imported embryos from her. A full sister to his dam sells as lot 53.

HOFF TRAIL BOSS SC929 was the first sire that Doug Hoff recommended we use following the purchase of four females at their dispersion sale. Having bought Limited Edition's grand dam we then made the mating to re-create the dam of Limited Edition - she sells as lot 53. From all reports Trail Boss was a massive performance sire big in stature, heavily boned and of extreme muscle pattern.

O'NEILLS PRIME STAR 80 is the bull that we have been waiting for that will fast track our improvement for marbling without sacrificing growth and pedigree uniqueness. We have been following the O'Neill's Angus program for decades with their first genetic influence coming from Renovator 2943. More recently we purchased O'Neill's Royal Edge K337 and then came across this bull - Prime Star 80. His sire is Americas #1 bull for marbling whilst his dam is considered one of O'Neill's best. Prime Star 80 progeny are soft, easy doing moderate cattle combining extra thickness with marbling. If you are serious about carcase quality Prime Star 80 should certainly appeal.

ONEILLS ROYAL EDGE K337 described by his breeder Jim O'Neill as "One of the most powerful 3 year old Angus bulls you will find anywhere. He is extremely deep, has excellent feet and legs, is extremely docile and has adequate bone with tremendous muscle and a square rump carrying down to an excellent quarter. Like all Expedition progeny he is extremely long bodied." We bought him at their annual bull sale as the second high seller and later re-sold him after collecting his semen for export. We have some really good Royal Edge daughters coming into the herd that are very strong maternally.

SAV BANDOLIER 1916 was first introduced by us as a good choice to use on direct Hoff Limited Edition daughters. He added extra maternal qualities in the way of milking ability and udder attachment, good coat and skin types along with added and improved softness. His daughters bred extremely well to almost any mating situations.

REFERENCE SIRES

In 2008 we visited the Miller Wilson herd at Alberta, Canada where we saw DMM Shift 78S and later bought the Australian Semen interest in him - that same year he went on to be the Canadian Show Bull of the Year. His mother is an awesome cow who has bred many stud sires in Canada. Shift progeny are all docile in nature, thick across the top and of moderate maturity. His first daughters in production carry their condition well, have calved easily with outstanding teat placement and good teat size.

SUMMITCREST SCOTCH CAP OB45 has proven to be the carcass improver but does not sacrifice the pedigree. Like all sires he does have the odd fault but when understood he certainly can leave some dominant progeny. He is a bull that we have used again recently to capture improved carcass and finishing ability on the high yielding type females within.

All your agribusiness lending needs, rolled into one.

Introducing the new Business Ready Package.

For a true all-in-one agribusiness lending solution, look no further than the Business Ready Package™. It includes up to three term loans and an overdraft facility – all rolled into one convenient package. With the flexibility and freedom to combine different loan types, you'll find it easier to keep in control of your cash flow and grow your business. Other benefits include:

- Competitive interest paid on all balances in credit*
- Easy access to your overdraft by cheque, cash or internet banking
- Choice of fixed or variable rate term loans, either interest only or principal and interest
- No hidden charges. A single quarterly fee covers all standard transaction charges*.

To find out how the Business Ready Package could help keep your business on a roll, talk to your District Banking Manager today.

Rebecca Bidstrup
District Banking Manager
