Welcome

Welcome to this year’s Female Production Sale at "Mundibulanga". We intend to make this event an Annual Production Sale for the future years ahead. After 10 years of drought with annual rainfall below half our average, 2012 marks our second year of recovery which has now given us the opportunity to stabilize our production and maintain a breeding herd at around 500 mature APR and HBR cows.

The emphasis we place on our cow herd is well known. Our philosophy has always been that if you have a superior herd of cows that are sound, functional and fertile they will produce bulls. If a cow cannot produce a bull calf good enough to sell as a breeding bull that cow has no place in our herd. We expect at least 95% of our male calves weaned to make it through to be sold as breeding bulls. All the animals in this sale have met these criteria and are a group of Angus cows and heifers we offer with confidence.

The Angus breed has experienced amazing growth in the past couple of years with recognition of the breed’s superior meat qualities. The catalyst for the breed popularity was the introduction of MSA grading which defined meat quality followed by the work of CAAB (Certified Australian Angus Beef) which took up the challenge of identifying premium meat quality with Angus. Today Angus beef is the most recognized quality beef product in the world and CAAB the most recognized branded beef product.

We at Raff Angus have always recognized the meat qualities of Angus and during nearly half a century of selective breeding have developed a herd of beef cattle that have retained those wonderful Angus qualities. Further to these qualities we have incorporated growth and yield comparable to any breed or composite in the world today. We now have a herd of black cattle that are unique in their genetic make up and unique in their type - they just happen to be pure Angus. Our goal always has been and remains totally focused on breeding the type of cattle that maximize the dollar return to the commercial cattle breeder by maximizing growth and yield with quality.

This sale gives Angus enthusiasts the opportunity to have access to genetics away from the mainstream which are backed by 46 years of dedicated breeding of Angus Seedstock. Please take this as a personal invitation to attend and be sure to call if you have any queries.

The Raff Family
COMMISSION AND REBATES

5% commission will be paid to any agent:-
• Accompanying a client to the sale.
  OR
• Attends the sale and purchases on a clients behalf
• Settling within seven days.

2% commission will be paid to any agent:-
• Introducing a purchaser to the vendor 48 hours prior to the sale but not accompanying the client to the sale.
  • Settling within seven days

AGENTS PLEASE NOTE -
The vendors will make no exceptions to any of these conditions.

All introductions to be made to Andrew Raff:

Email  raffangus@bigpond.com
Fax      07 4627 6293
Phone   07 4627 6064
Mobile  0429 691 975

DELIVERY AND TRANSPORT

All delivery arrangements will be managed by Mick and Kathleen Moffatt
Mobile 0407 658 194
Home 07 4665 8154
SALE INFORMATION

Registration Status
All animals are either **HBR** (Herd Book Registered) with a green tag or **APR** (Angus Performance Registered) with a yellow tag. Those with a white tag are fully imported Hoff embryo progeny.

Animal Identification
All animals are freeze branded with the 'bench axe' symbol, year letter and number. A near side ear tag has the females ID, year letter and number. The off side ear has the females NLIS tag. Lot numbers will be paint branded on animals on sale day.

Inspection
**An Open Day will be held on Sunday 25th March when all sale cattle will be available for inspection. Sires and joining sires to these sale lots will also be available for inspection that day.**
Sale animals may be inspected prior to the sale by arrangement with the vendors.
Cattle will be penned ready for inspection from 9am on the morning of the sale.

Delivery
Cattle will be available for delivery immediately after the sale. "Mundibulanga" is in a tick free area and cattle are free to move interstate.

Transfer
All lots that sell are registered with Angus Australia. If you would like your purchases transferred then be sure to inform our sales manager at the completion of the sale. The associated transfer fee will be borne by the successful purchasers.

Refreshments
Lunch and refreshments will be available on sale day with the compliments of the Raff family.

AuctionsPlus - Raff Angus Female Sale is interfaced with AuctionsPlus.
Auction prices at this sale are live online and will be interfaced with the physical auction.
A computer is used to bring the real time "on property" prices to your Internet screen for those that have registered as AuctionPlus bidders. Online bidders can place a bid on their computer and the result is immediately transferred to the person on property controlling the device - then on to the auctioneer. Bidding is only available to registered AuctionsPlus users.
We recommend registering online as soon as possible if you wish to use the facility and become familiar with the sites operation. We have undertaken to use AuctionsPlus as an additional option - we will still operate phone bidding. It has been put in place in order to make it more convenient for our clients to secure their selected lots.

You must register at least 24 hours prior to the sale on www.auctionsplus.com.au

Phone Bidding
Phone bidding is available on sale day. Please make contact with us so arrangements can be made.

The first full female sale with complete Genomic Enhanced EBVs

Genomic enhanced EBVs are BREEDPLAN EBVs that now include an extra source of information to make those EBVs more accurate. The image below shows a graphic representation of all sources of information used by BREEDPLAN to calculate EBVs.

Raff Angus is at the forefront of adoption for DNA technologies and this female sale is an excellent example of this. Raff Angus are the first Angus stud in Australia to test all animals to be sold with the HD50K for Angus in order to provide this information to buyers.

Which traits are incorporated into BREEDPLAN and which are completely outside of BREEDPLAN?

As part of the monthly Angus Group BREEDPLAN run, breeders and buyers alike are getting a suite of the most advanced selection tools available for any breed anywhere in the world. The addition, since April 2011, of Pfizer’s Molecular Value Predictions (MVPs) for 11 traits to the calculation of Angus Group BREEDPLAN EBVs has revolutionized the way that young animals can be selected increasing the rate of genetic gain for the Angus breed in Australia.

- **Calving:** (Calving Ease Direct#, Calving Ease Daughters#, Birth Weight#)
- **Fertility:** (Scrotal Size*)
- **Growth:** (Weaning Weight#, Milk#, Yearling Weight*, Mature Cow Weight*)
- **Feedlot:** (Dry Matter Intake‡, Feedlot Daily Gain‡, Net Feed Intake‡)
- **Carcase:** (Carcase Weight#, Rib Fat#, Eye Muscle Area#, Marbling#, Tenderness‡)

# traits included in the BREEDPLAN analysis; *traits soon to be included; ‡ traits outside of BREEDPLAN

For more information contact

Terry Farrell
terry.farrell@pfizer.com or Phone 0437 226 122
Raff Angus use multiple sources of information to make breeding and selection decisions on farm. We have always said that our preference is to use MVP's as a stand alone product. However our breed society and beef recording organisations have made it mandatory for the reporting of genomic information to be in the form of a GE-EBV. This means that we have been left with no option other than to present this information as genomic enhanced estimated breeding values to the public to avoid confusion. By incorporating this genomic information into EBV’s we are unable to report some very important traits that we now have information on, feed efficiency, meat tenderness and daily weight gain simply because Breedplan does not have the facilities to report them.

The major advantages of genomics are:

- The ability to determine the genetic potential of an animal virtually at birth.
- It is information about the individual animal, not a mid-parent estimate based on assumptions.
- It can not be influenced by the environment or manipulated by humans.
- It provides meaningful data on hard to measure traits like feed efficiency and meat tenderness.
- Its ability to describe the difference between ET flush sibs at an early age.

The objective of Raff Angus in using the HD50K for Angus is to "describe" an animal and its genetic potential. With the use of genomics Raff Angus is able to select the type of animal that will be able to perform and thrive under the prevalent conditions on their clients' properties. By defining their own breeding objective that combines the attributes of an optimal animal we are able to determine where we need to be in relation to each trait and identify those animals with the genetic potential to perform under these conditions.

Raff Angus tries to avoid chasing "Top 1%" animals for all traits rather establish the optimum performance level for a sustainable production in each trait.

HOFF LIMITED EDITION is a real legend in the Angus breed world wide. His progeny have sold to $32,000 and with semen sales has grossed us in excess of $1.5 million. His daughters are some of our best breeding cows. We have limited semen available and will consider using him again on females that need a real injection of power in several years time. This bull needs no introduction to the industry. 34 daughters sell and 2 lots AI’d to him.

RAFF X-FACTOR X3 was purchased back into the herd as an aged bull after topping our 2003 bull sale. He is one of our highest IMF% scanning bulls as was his dam Doris V9 and his flush sister. X-Factor is incredibly potent at breeding high marbleing cattle from even moderate IMF cows. As a rising 10 year old he is sound and still very active in natural service. He will continue to be used selectively to add fat and marbleing without compromising pedigree merit. His MVP’s (Molecular Value Predictions) have him in the top 2% of the breed for Marbling. 7 daughters sell and 4 lots depastured to him.
RAFF EMPIRE E269 is a 10th generation Raff bred bull who traces back to our foundation cow, Sarum Doris 19th who we purchased in 1965. His 3rd dam is sired by Raff Ultimate U27 who we bred from the great Burnette family and is a direct descendant of the great Burnette A22. We consider Empire to be the greatest bull we have ever bred. He has won eleven Inter-breed Supreme Beef Exhibit titles including the Melbourne Royal Angus Feature Show and Dubbo Beef Spectacular. A bull described by the 2011 Melbourne Show judge David Bondfield, Palgrove Charolais as ‘the reason why Australia should be exporting semen to USA not importing it.’

His MVP’s (Molecular Value Predictions) have him in the top 30% of the breed for IMF and 80% for growth. His identical flush brother who sold for $18,000 at our sale last year who at 25 months weighed 1,152 kg, EMA of 147 sq cm, 17/15mm fat, 6.1% IMF and a 44cm scrotal with a 7.9 frame - just an awesome body of beef that ticks all the boxes!

RAFF EMPIRE E269

RAFF EXPLOSIVE E108 is one of only a handful of Connealy Danny Boy sons in Australia. He is a massive bull that typifies what a Raff bull should be - phenomenal growth, extreme length, great neck extension and perfect shoulder set who is sound on his feet and legs with a powerful head. He prows the paddock like a cat while maintaining his condition at the completion of a season having come out of cows last month weighing 1200kg’s. He is also a flush brother to stud sire Raff Enforcer E41. 12 lots sell depastured to him.

RAFF EXPLOSIVE E108

RAFF EXTERMINATOR E201 was a stand out at birth and is proving to be one of our better breeding bulls. His extreme length, strength of spine, thickness and sheer capacity sets this bull apart from the rest. Used heavily as a yearling and again as a two year old Exterminator has not really had a chance to physically express his potential. His identical flush brother who sold for $18,000 at our sale last year who at 25 months weighed 1,152 kg, EMA of 147sq cm, 17/15mm fat, 6.1% IMF and a 44cm scrotal with a 7.9 frame - just an awesome body of beef that ticks all the boxes! 15 lots sell depastured to him.

RAFF DISTINCTION D197 must be considered one of our better bulls resulting from our USA embryo import program. With so much power, substance, volume and capacity Distinction really is an amazing beef bull. He is wide based with excellent feet and legs; he has a long body and a strong spine with incredible width and depth of hindquarter. Like all Moriah sons he has a wonderful disposition. In our search for a modern sire to use on our Hoff cows we found Connealy Danny Boy - his sire. An aged bull when we inspected him Danny Boy was not an extreme bull but one of the soundest and better made bulls with a pedigree full of proven and good sound genetics, he actually looked like a proper beef bull! 1 daughter sells and 10 lots depastured to him.

RAFF DAKOTA D85 is a massive 63 inch bull and ¾ brother to Hoff Limited Edition that is just so beautifully balanced and structurally correct. Contrary to his performance data Dakota is one of our most complete bulls, a bull that will make cows the right shape for them to thrive, survive and reproduce in any environment. While his dam Hoff Blackbird 5217 was not a prolific embryo producer her sons and daughters have been outstanding. He will stand here for quite some time as we can always use a bull like him. 3 daughters sell.

RAFF DAZZLER D353 is a unique performance sire for raw data, EBV’s and MVP’s. He is a low birth weight bull with explosive growth, massive scrotal, carcass weight and eye muscle area. His MVP’s have him in the top 9% for tenderness, excellent feed efficiency and better than breed average for marbling. Sired by Papa Equator from our great Hoff Blackbird 5217 Dazzler is a flush sister to Raff Dynamite D345 and Eye Muscle area. His MVP’s have him in the top 9% for tenderness, excellent feed efficiency and better than breed average for marbling. Sired by Papa Equator.

RAFF DICTATOR D364 is a massive 64 inch and 1300kg son of Hoff Lady Durham by the old breed legend Leachman Prompter. His athleticism, carriage and little bit of arrogance - the way he prances around the paddock - has earned him the title 'the thoroughbred stallion'. His progeny have the extra neck extension and lovely shoulder setting of their sire - his daughters should make wonderful cows. He is currently for sale as he will be replaced by a flush brother we have purchased back after selling him in 2008. 3 daughters sell along with 16 lots depastured to him.

RAFF EMBLEM E69 adds to the amazing of battery of sires that Hoff Moriah 822 has produced for us. Sired by Limited Edition’s sire Hoff Charger 242 - Emblem again has the power and volume lacking in so many Angus today. It would be hard to change his confirmation to make it any better. His calves are of a type while his flush sisters are really great females. Emblem is such a safe and predictable sire and one that we will continue to use for many years. 6 lots sell depastured to him.

RAFF EMPEROR E106 is another power packed Moriah son. We used his sire Leachman Hoss to capture the genetics of his dam Leachman Lass 1004 (also the dam of Leachman Prompter) a cow that David Raff ranks as one of the all time great Angus cows he has ever seen. Emperor is a big boned and strong headed sire with near perfect feet and legs with big testicles. He has so much volume and width of hindquarter that indicate he should breed cows with shape and capacity. 6 lots sell depastured to him.

RAFF ENCORE E110 is a ¼ brother to Emperor combining what we believe to be the best modern day cow Hoff Moriah 822 with our favorite old cow Leachman Lass 1004 - the power of the pedigree really shows through here. To sustain a viable cow herd sooner or later the breed is going to need these reliable tried and proven genetics that breed bulls with power and capacity and cows that have shape and constitution. Encore is an upstanding individual, smooth through the front, wide through the back end and has a wonderful nature. He will sell at our September 24th bull sale as he will be replaced by another flush brother Raff Freddo F143 who is currently in our show team. 6 lots sell depastured to him.

RAFF EGO E266 is another Hoff Blackbird 5217 son by a bull we found at the last AI center we visited in USA - O'Neill's Expedition. Ego is a very smoothly made and strong topped bull with extra softness and doing ability with a tenderness MVP in the top 9% of the breed. A flush brother sold to Irelands Angus stud with a flush sister possibly our best 2 year old heifer ever bred. His last flush brother sells at our September 24th bull sale.

DDM SHIFT 78S was inspected by us at the Miller Wilson ranch in Canada when we purchased the Australian semen rights on him - that same year he went on to become Canadian Show Bull of the Year. His mother is an awesome cow who has bred many stud sires in Canada. Shift progeny are all docile in nature, thick across the top and of moderate maturity. His daughters have perfect udders and hold their condition well after calving. His MVP's (Molecular Value Predictions) have him in the top 40% of the breed for Marbling.

ONEILLS ROYAL EDGE K337 was purchased outright at the 2008 O'Neill's Angus bull sale. We had followed with interest his maternal pedigree for years and after inspecting himself, his dam, grand dam and full sister, his purchase was secured. A son bred by Corey Ireland sold at Sydney show last year for $20,000 to Steve Chase. His MVP's (Molecular Value Predictions) have him in the top 40% of the breed for Marbling.

Lots 1 - 22  Cows and first calf heifers with March born calves at foot or at point of calving - including full sister to stud sire Raff Dallas D216.

Lots 23 - 46  Cows and first calf heifers with Sept/Oct 2011 born calves at foot and rejoined - including some outstanding bull calves.

Lots 47 & 48  BUYERS CHOICE - First progeny to sell in Australia by the most acclaimed Show Bull 2011 - Raff Empire E269. The successful bidder takes their pick lot with Raff Angus to keep the remaining heifer.

Lots 49 - 71  PTIC rising two year old "F" heifers including fully imported Hoff genetics.

Lots 72 - 92  PTIC rising 3 year old "E" females including a direct daughter of Hoff Blackbird 5217.

Lots 93 - 117  PTIC "C" & "D" females including potential donors and a past show heifer.

Lots 118 - 133  PTIC mixed age proven breeding cows.

Lots 134 - 145  Un-joined yearling heifers including an Appeal daughter out of a full sister to stud sires Raff Enforcer E41 and Raff Explosive E108.

Lots 146 - 147  Un-joined commercial heifers sired by leading AI & Raff Angus stud sires.
Lot 3 - Raff Lady Durham E58

There are only six Connealy Danny Boy daughters in Australia - with four flush sisters retained this fully imported Hoff female is the first ever offered for sale. She is wedgy with great teat placement and is certainly of outcross genetics to the mainstream Angus pedigree. Departed Raff XFactor X3 19/05/11 to 11/07/11.

Lot 4 - Raff Lady Durham E72

This fully imported Hoff female is extremely docile in nature and of large frame. Her dam was a magnificent cow that proved highly fertile producing stud sires Raff Dallas, Dictator and Enticer. E72 will compliment any of today's AI sires. Departed Raff XFactor X3 19/05/11 to 11/07/11.
Lot 5 - Raff Burnette E77

This is the first Appeal daughter to sell. Like her dam she has extra bone, muscle and girth that weighs heavy. Burnette E77 had bad luck with her first calf but has since matured into an extremely powerful cow. Al to Hoff Limited Edition SC594 due 04/03/12. Departured QRFD364 28/05/12 to 11/07/11.

Lot 6 - Raff Duchess E90

A Duchess cow whose maternal line has proven to have extra longevity and superior structural soundness. E90 is a great matured cow with capacity. Her very neat Dazzler daughter sells as lot 142. Depastured Raff Dictator D364 19/05/11 to 11/07/11.

RAFF DORIS E299 (APR) 31/08/2009

Her sire, Merridale Gold Label Y157, was an extremely athletic sire that expressed more natural thickness then met the eye. Springing to calve to Al she is already showing good udder development. Al to Raff Explosive E108 due 28/02/12. Departured QRFD364 29/05/11 to 11/07/11. Tested CAC.

RAFF BURNETTE D292 15/08/2008

This lot is one of only several Black Thunder sons to sell. Just three generations back she descends from a female we sold a ½ share for $25,000 in 1989. Departured Raff Dazzler D353 19/05/11 to 11/07/11.

Lot 13 - Raff Doris D10

As a heifer this young matron would have fit into most peoples show team. She has extreme neck extension and smoothness of shoulder with a good skin type and udder profile. She is a really good looking cow with a superb Duke D367 daughter retained. Depastured Raff Dazzler D353 19/05/11 to 11/07/11.

Lot 14 - Raff Burnette C163

Another Limited Edition daughter whose second calf by DMM Shift 785 being a ripper - her current mating will be even better. She is a great milker and udder profile. She is a really good looking cow with a superb Duke D367 daughter retained. Depastured

Lot 13 - Raff Doris D10

Lot 14 - Raff Burnette C163

Although off the registrar for several years she has calved down every year and does contain the best of Wilcoola and Doris genetics. Her mating should add thickness and docility. Depastured Raff Duke D367 19/05/11 to 11/07/11.

This is a very smooth skinned and docile cow that, although off the registrar for a while, has done a great job on her calves every year - her bull calf that sells September is one of her best. Depastured Raff Duke D367 19/05/11 to 11/07/11.
| Lot 18 - Raff Doris A62 |

A62 weaned the top performing bull calf within a group of 60 March born calves who recently weighed 520kg at 9 ½ months gaining 1.52kg/day. She is a proven breeder of top end progeny. Depastured **Raff Duke D367** 19/05/11 to 11/07/11.

| Lot 20 - Raff Doris Y111 |

Every year she has calved down and continues to be extremely protective of her new born. **Y111** is large in frame with great strength of spine and excellent milking qualities. AI to DMM Shift 785 due 22/02/12. Depastured **QRFD197** 28/05/11 to 11/07/11.
Lot 21 - Raff Burnette Y94

A cow with a superior muzzle, extra width of hip and spring of rib. This is a good Angus cow with loads of volume. She has calved every year with her last Dictator D364 daughter exceptional. Depastured Raff Distinction D197 19/05/11 to 11/07/11.

Lot 23 - Raff Burnette U197

This is as good a 3 in 1 package to be offered. U197 is very easy doing and sells with reluctance. Sells with bull calf at foot G412 born 09/10/11 sired by QRFE201. Depastured Raff Explosive E108 02/11/11 to 29/12/11.

Lot 23 - 46

Cows and first calf heifers with Sept/Oct 2011 born calves at foot and rejoined - including some outstanding bull calves.
Lot 24 - Raff Doris Z201

Full CA free flush sister to highly used AI sire Raff Midland Z204 who was purchased by Doug Tozer in 2005. This cow is a milky with a very good profile. She has calved every year with a daughter retained. **Sells with heifer calf at foot** G416 born 11/10/11 sired by QRF201. Depastured Raff Dallas D216 02/11/11 to 29/12/11.

Lot 36 - Raff Burnette D254

The only Brigadire daughter to sell that has a great profile and udder qualities. Just like her dam and grand dam she carries condition well. Sells with heifer calf at foot G390 born 11/09/11 sired by QRFD345. Depastured Raff Encore E110 21/09/11 to 28/11/11.

Lot 37 - Raff Doris D278 (APR) 9/8/2008

There are some really quiet natured females in her pedigree. Her calf at foot is a good corrective mating that adds bone and thickness. Sells with bull calf at foot G404 born 25/09/11 sired by QRFE106. Departured Raff Dallas D216 02/11/11 to 29/12/11.

Lot 38 - Raff Starlette E111 (AI) 26/04/2009

This fully imported Hoff female resulted from the matings to produce a full genetic sister to the dam of Limited Edition. Sells with bull calf at foot G357 born 22/08/11 sired by XRFX3. Depastured Raff Empire E269 07/10/11 to 11/12/11.

Lot 39 - Raff Burnette E226

This is a good looking young female with a high quality calf at foot. His sire, Raff Entier, sold privately for $16,500 last year. Sells with bull calf at foot G405 born 26/09/11 sired by XRFX66. Departured Raff Explosive E108 02/11/11 to 29/12/11.
**Lot 40 - Raff Burnette E255**

Burnette E255 is a very feminine, angular and refined first calver who combines some great genetics that live long and breed on. **Sells with heifer calf at foot**

These two unique heifers are offered together with the successful bidder taking their pick lot with Raff Angus to keep the remaining heifer. This is an outstanding opportunity to secure the first daughter of Australia’s most acclaimed show bull for 2011 - Raff Empire E269. Their dam is a fully imported Hoff female from the influential donor Blackbird 5217. These Buyers Choice lots are genetically superior, have total performance and individual excellence - be sure to consider these heifers.

Lot 47 - Raff Blackbird G296

Lot 48 - Raff Blackbird G306
Lots 49 - 71
PTIC rising two year old "F" heifers including fully imported Hoff genetics.

Lot 49 - Raff Lady Durham F140

This is another feature lot of the sale that is a fully imported Hoff heifer of outcross genetics to the mainstream Angus. Shown as a heifer F140 is an attractive individual and full sister to used sire Raff Enticer E66. AI to Raff Empire E269 due 21/07/12. Depastured QRFE266 05/11/11 to 06/01/12.

Lot 50 - Raff Doris F341 (APR) 6/10/2010

Doris F341 contains a pedigree dense with Hoff Scotch Cap Angus genetics. She is just a young heifer for now who will mature to be of large frame and docile in nature. Depastured Raff Frodo F117 26/09/11 to 06/01/12.

Lot 51 - Raff Burnette F334 29/09/2010

This is a heifer that contains some valuable breeding cows within her pedigree. She is long with extra neck extension and mobility. Her dam is a very functional line of large framed cows. AI to Raff Empire E269 due 21/07/12. Depastured QRFD335 15/10/11 to 06/01/12.

Lot 52 - Raff Duchess F332 27/09/2010

Descending from a line of large framed cows F332 will be an appealing individual when mature. She will compliment most of today’s moderate AI sires. Al to Raff Empire E269 due 21/07/12. Depastured QRFD335 15/10/11 to 06/01/12.

**Lot 70 - Raff Moriah F25**

This is the first Hoff Moriah 822 fully imported heifer to ever be offered. The first 24 direct Moriah 822 sons have sold to average $10,000 having topped the last three Raff Angus Bull sales ~ seven sons have also been retained for stud duties. This is a rare opportunity. Hand mated Raff Fortune F344 on 06/12/12.

---

**Lot 79 - Raff Doris E235**

This is an easy care Appeal daughter that has plenty of substance yet still remains feminine. The Burnette and Doris cow families have certainly been our most potent - she has both within her pedigree. Departured Raff Dictator D364 19/08/11 to 17/09/11.
Lot 82 - Raff Doris E207

Doris E207 is a very easy doing young breeder with an excellent udder and good teat placement. Her dam is still active in our herd as a rising 15 year old who maintains excellent foot and leg structure. Depastured Raff Exterminator E201 22/08/11 to 03/01/12.

Lot 80 - Raff Duchess E220

Raff Duchess E220 is a magnificent young female that has depth of pedigree, structural soundness, excellent neck extension and general eye appeal. There is loads of performance in her with a good Enticer E66 son raised as her first calf. Depastured Raff Exterminator E201 22/08/11 to 03/01/12.

Lot 84 - Raff Burnette E192

The genetics within this lot may be older style but they are sound and have certainly stood the test of time. E192 is a really well made cow. Premier Julie resulted from the mating between two fully imported animals introduced by us in the mid 1980's. Departed Raff Exterminator E201 22/08/11 to 03/01/12.

Lot 85 - Raff Doris E185

This is a long and quiet natured DMM Shift daughter whose 2nd dam is a flush sister to the highly used AI sire Raff Midland Z204 - we sold her at our 2009 female sale. Her 3rd dam sold for $20,000 that same year. Departed Raff Dictator D364 19/08/11 to 17/09/11.

Lot 86 - Raff Burnette E181

One of the more moderate females that sells within this sale. Her dam was a show heifer; her 2nd dam is a prolific donor who also produced 12 calves naturally in 9 years. Depastured Raff Exterminator E201 21/09/11 to 03/01/12.
Lot 89 - Raff Burnette E94

This is a very fleshy and extremely quiet cow that has good feet, a great muzzle and extra flank. Her dam was a great breeder with sons topping at $15,000 going to Western Australia. Depastured Raff Dictator D364 19/08/11 to 1/09/11.

**The Game has changed...**

The new HD 50K for Angus provides MVPs on 16 traits using more than 50,000 DNA markers, providing the most reliable genomic predictions today. Now incorporated into Angus Group BREEDPLAN EBVs!

The new High-Density (HD) 50K for Angus provides Molecular Value Predictions (MVPs) for economically important traits, allowing you to:

- Identify early, those calves with the best genetic potential
- Make genetic progress on economically important traits that are difficult to measure
- Increase accuracy to allow more informed selection decisions
- Increase your rate of genetic gain
- Provide more value to your customers

**To take breeding decisions to the next level call 1300 768 400 or visit www.pfizeranimalgenetics.com.au**
Lot 94 - Raff Doris D306

A visually appealing cow with good girth and spring of rib. Her sire was a powerful sire that looked a little flat sided until you tried to fit him up the race - he could not fit. He was incredibly balanced and mobile for a bull of that size. Depastured Raff Emblem E69 25/08/11 to 23/12/11.

Lot 93 - 110

PTIC "D" females including potential donors and a past show heifer.

Lot 101 - Raff Burnette D152

Burnette D152 is a high quality matron that is visually very eye appealing combined with strength of pedigree and solid performance. With her first two progeny both bulls and no daughters retained we reluctantly sell her. Depastured Raff Emblem 69 25/08/11 to 23/12/11.

Lot 103 - Raff Burnette D95

A magnificent daughter of the high selling Banquet bull Time Frame Y135 who we leased that same year. This cow has tremendous neck extension and great smoothness of structure with her two daughters retained. The combined mating will be all quality. Depastured Raff Distinction D197 25/08/11 to 19/10/11.

Lot 109 - Raff Duchess D15

Big ears are a good indicator to how an animal will grow out - particularly within the Angus breed - and this female has just that. She is strong topped and very maternal that will always weigh heavy. Depastured Raff Emperor E106 25/09/11 to 29/12/11.

Lot 110 - Raff Vicki D2

A rare Clinton daughter that resulted from the purchase of four frozen embryos when visiting the Blyth family after inspecting flush sisters. She has plenty of girth and power descending directing from the great Vicki cow. One daughter retained. Depastured Raff Distinction D197 25/09/11 to 19/10/11.

Lots 111 - 124

PTIC “B” & “C” females including potential donors and a past show heifer.

Lot 111 - Raff Burnette C232

Burnette C232 is a very long and strong topped cow that oozes with maternal qualities. Her dam was a big milking cow from a successful flush of cows that always bred well under any mating decision. Depastured Raff Emperor E106 25/09/11 to 29/12/11.

Lot 121 - Raff Burnette B114

B114 is a very neatly made cow that certainly looks magnificent a week or so after she calves down. She has enough substance with great udder qualities. We have retained a magnificent Dictator daughter from last year. Depastured Raff Dallas D216 25/08/11 to 29/12/11.

Lot 122 - Raff Burnette B78

Burnette B78 has been a magnificent donor cow for us. She is a genetic full sister to our 2006 $32,000 record bull that has volume, docility and pedigree merit who weighed 952kg last year. We have enough of her pedigree within our herd with daughters retained so she sells. Depastured Raff Explosive E108 25/08/11 to 06/12/11.

Z151 is a very good Hi Road 956 descendant that has a great skin, temperament and udder qualities. Her first Limited Edition son sold well with a full sizer to him retained. Departured Raff Duke D367 19/04/11 to 09/11/11.

Lot 127 - Raff Burnette Z2

There is no doubt that Burnette Z2 should become a donor cow at her next home - she is simply an awesome cow. She defines the meaning of capacity, strength of muzzle, docility and strong maternal qualities. She had an outstanding Appeal son sell in 2010 for $19,000. Departured Raff Encore E110 2/5/11 to 28/11/11.

Lot 128 - Raff Eclypta Y216

Y216 weaned an outstanding Raff Dakota D85 daughter off her last year - she is back to that mating again. We purchased a flush from her dam that resulted in three big and robust cows that combine the best of Raff and Banquet genetics. Departured Raff Dakota D85 2/5/11 to 06/12/11.

### RAFF BURNETTE X131 (AI) 24/08/2002

**Lot 129 - Raff Doris Y23**

This cow has so much capacity and barrel that you could fit several high marbling modern Angus cows inside of her. She has calved every year and been a really consistent breeder for us. Depastured Raff Dictator D364 19/08/11 to 17/09/11.

### RAFF BURNETTE X131 (AI) 24/08/2002

**Lot 130 - Raff Burnette X131**

A proven Emulation EXT daughter whose first Limited Edition son at our record 2006 bull sale sold for $25,000. We have her only daughter retained that, like this cow, is all maternal. Depastured Raff Emblem E59 23/08/11 to 23/12/11.
Lot 132 - Cawdor Doris W110

This is a wonderful Raff Ultimate daughter who is very docile and always breeds well. She is all Raff genetics with her Cawdor prefix being my brother’s family. There is a great opportunity to gain some strong Burnette and Doris bloodlines in this lot. Depastured Raff Emblem E69 25/09/11 to 23/12/11.

Lots 134 - 145

Un-joined yearling heifers including an Appeal daughter out of a full sister to stud sires Raff Enforcer E41 and Raff Explosive E108.

Lot 135 - Raff Blackbird G11

This is an outstanding lot that has pedigree, performance and presence. Her dam is a flush sister to stud sires Raff Enforcer E41 and Raff Explosive E108 which, combined with her sire J&C Appeal, makes her genetically superior. Blackbird G11 is a unique package and must be considered. Unjoined.
Lot 136 - Raff Moriah G14

With the introduction of Hoff genetics in our herd we have since being using our proven Raff genetics back over them to blend the best of both programs. This is a very pretty heifer displaying enough growth and style for her age. We have a full brother to her dam in stud duties - Raff Emperor E106. Unjoined.

Lot 137 - Raff Durham G22

Not only our genetics but also top outside Australian sires have been used over Hoff heifers resulting in highly predictable animals. The dam of this lot also has a flush brother here in stud duties - Raff Dictator D364. Unjoined.

Lot 138 - Raff Burnette G37

We sell this lot as we have retained her twin sister. Her mother produced the 2010 Reserve Senior Champion Cow at the Adelaide Feature Angus Show - Burnette D35. G37 will mature with capacity and volume. Unjoined.
A young heifer that is full of really proven genetics. Her sire is a magnificent beef bull who is a full brother to our 2010 $20,000 high selling bull. She will breed beyond herself. Unjoined.

**RAFF BURNETTE G55 (HBR) 11/3/2011**

PEN OF 5 COMMERCIAL HEIFERS

These heifers are all June 2011 born and sired by Raff Merlot C270 out of proven Raff Angus Cows. Unjoined.

PEN OF 6 COMMERCIAL HEIFERS

These heifers are July/August 2011 born sired by a mixture of our leading stud sires out of proven Raff Angus cows. Unjoined.
FEMALES

1. The seller warrants that:
   (1) Females over 8 months and catalogued as unjoined or not pregnancy tested in calf (PTIC) are fertile to natural service within 12 months of date of sale to the purchaser (“Warranty Period”); and
   (2) No fertility warranty is given in respect of females pregnancy tested in calf (PTIC). A PTIC certificate does not constitute a warranty but is the veterinarian’s opinion that the female was in calf at the date of certificate.
   (3) Females offered for sale are of the parentage as catalogued.

2. The seller will credit or refund the purchase price of females (excluding any costs and expenses of the purchaser in taking delivery):
   (1) Where the purchaser claims a female is infertile, upon the purchaser submitting a veterinary report after the expiration of the Warranty Period to the effect that the purchaser has been unable to get the female in calf to natural service, and a Statutory Declaration by the purchaser to the effect that the substance of the report is true and correct. The veterinarian must state that in his/her opinion there is no evidence that the female has suffered any injury or illness during the Warranty Period which could have affected her breeding ability. The veterinarian must also state that in his/her opinion there is no evidence that the female has been subjected to embryo transfer procedures during the Warranty Period. The veterinary report and Statutory Declaration must be forwarded to the seller within 14 days of the Warranty Period expiring. Any refund payable by the seller will be made within 21 days following the receipt by the seller of the veterinary report and Statutory Declaration.
   (2) Where the purchaser claims a female is not of the parentage catalogued, upon the purchaser submitting a DNA test or blood test within the Warranty Period indicating that the female is not of stated parentage.
   (3) Where the term “credit” is used means the giving by the seller to the purchaser of a sum equivalent to the amount of the purchase price for use by the purchaser only in relation to the purchaser from the seller of another female.

3. The purchaser acknowledges that the purchaser does not rely and it is unreasonable for the purchaser to rely on the skill or judgment of the seller as to whether the females supplied are reasonably fit for any purpose for which they are being acquired.

Disclaimer of Warranties
The seller makes no representations or warranties regarding the state, quality or condition of the females offered for sale or sold. The Trade Practices Act, 1974 (Cth) and certain corresponding State Legislation imply terms, conditions and warranties into some contracts for the supply of goods and services and prohibit the exclusion, restriction and modification of such terms (“Prescribed Terms”). Except as provided by the Prescribed Terms all terms, conditions and warranties express or implied by custom, law or statute in any way relating to the state, quality or condition of the females offered for sale or sold are hereby excluded.

Limitation of Liability
Except as provided by the Prescribed Terms, the seller shall not be liable for any indirect, incidental, special and/or consequential damages including but not limited to loss of profits arising out of any reliance by the purchaser on the information or content set out in this sale catalogue and/or the quality or condition of the females offered for sale or sold.
To the maximum extent permitted by law the seller’s liability for breach of any Prescribed Term is limited at the option of the seller to:
   i. The replacement of the female; or
   ii. The supply of an equivalent female; or
   iii. The payment of the cost of replacing the female or acquiring an equivalent female.

~ SALE CATALOGUE DISCLAIMER ~

“All reasonable care has been taken by the vendor to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor or the selling agents make no other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue.
