

## 2013 Female Sale – 18 March 2013

Lot No.	Comments
Lot 1 QRFY120	Burnette Y120 is an extremely quiet cow with extra length and girth. Her sons have sold to \$11,000 with a grandson, Raff General G252, being used here last year. This is a wonderful cow/calf unit to start the sale. <b>Sells with bull calf at foot H400 {3 germ vaccinated}</b> born 09/09/12 <b>sired by Raff Empire E269</b> . Depastured QRFE201 28/09/12 to 31/12/12
2 QRFA33	This cow always breeds well with a cracking calf at foot - her Defender D218 son sold in 2011 for \$10,000. Her dam's pedigree is impeccable and has been a donor over the past years. <b>Sells with heifer calf at foot H418 {3 germ vaccinated}</b> born 15/09/12 <b>sired by Raff Empire E269</b> . Depastured QRFD367 28/09/12 to 05/12/12
3 QRFB210	Phenotypically Doris B210 is one of the more attractive females to sell. Sired by the \$50,000 Time Frame Y135 bull she is a highly fertile cow with an excellent udder profile. Her grand-dam Doris S128 is still perfectly sound and productive here at 15 years. <b>Sells with heifer calf at foot H324 {3 germ vaccinated}</b> born 08/08/12 <b>sired by Raff Encore E110</b> . Depastured QRFD216 28/09/12 to 31/12/12
4 QRFB223	Burnette B223 has a pedigree stacked for docility. Her dam is a big muzzled matron whilst her sire being regarded for producing highly productive daughters. Her pedigree is very sound. <b>Sells with bull calf at foot H389 {3 germ vaccinated}</b> born 04/09/12 <b>sired by Raff Dallas D216</b> . Depastured QRFF143 28/09/12 to 31/12/12
5 QRFC297	She calved down twins in 2011 then managed to calve down in 2012 just 9 days later. This pedigree contains some of the great and highly proven 'aged' genetics in the country. She puts everything into her calves with her calf at foot undoubtedly one of the best. <b>Sells with heifer calf at foot H359 {3 germ vaccinated}</b> born 04/09/12 <b>sired by Raff Empire E269</b> . Depastured QRFE201 28/09/12 to 05/12/12
6 QRFD143	Doris D143 has good bone and substance with her first two daughters retained. She is another docile cow whose sire bred really functional and moderate type cattle. Her dam was a robust Limited Edition daughter. <b>Sells with bull calf at foot H382 {3 germ vaccinated}</b> born 31/08/12 <b>sired by Raff Dakota D85</b> . Depastured QRFF143 28/09/12 to 31/12/12
7 QRFD176	Raff Doris D176 is a honest and safe breeding cow with good depth of pedigree that contains some of our better breeding Doris cows. <b>Sells with bull calf at foot H387 {3 germ vaccinated}</b> born 04/09/12 <b>sired by Raff Emblem E69</b> . Hand mated QRFE266 11/02/13.
8 QRFD275	The pedigree of D275 contains cows that have longevity - her third dam was retired just last year at nearly 17 years of age. She also had twins in 2011 and calved down quickly in 2012. <b>Sells with heifer calf at foot H358 {3 germ vaccinated}</b> born 21/08/12 <b>sired by Raff Emblem E69</b> . Depastured QRFE201 28/09/12 to 31/12/12

9	QRFE15	This is a large framed and robust Doris cow whose first son sold last year for \$9,000. She is extremely quiet with excellent udder and teat qualities. Her calf is a beauty. <b>Sells with heifer calf at foot H426 {3 germ vaccinated}</b> born 24/09/12 <b>sired by Raff Dazzler D353</b> . Hand mated QRFE266 23/01/13
10	QRFE144	Duchess E144 had twins as a first calf heifer then re-bred quickly and calved down just 6 days later to the previous year. This is a hard working and good natured young cow with plenty of years ahead of her. <b>Sells with bull calf at foot H347 {3 germ vaccinated}</b> born 14/08/12 <b>sired by Raff Exterminator E201</b> . Depastured QRFE106 28/09/12 to 31/11/12
11	QRFE181	Moderate in size but with a pedigree full of high performance cattle suggests that Burnette E181 will breed beyond herself. If you believe efficiency is found in a moderate breeder herd then this lot should interest. <b>Sells with bull calf at foot H342 {3 germ vaccinated}</b> born 12/08/12 <b>sired by Raff Exterminator E201</b> . Depastured QRFD367 28/09/12 to 05/12/12
12	QRFE206	This is a really well bred young female whose had genetic full brothers sell for high values in previous sales here. She is quiet with extra frame with her dam highly fertile and productive. <b>Sells with bull calf at foot H399 {3 germ vaccinated}</b> born 08/09/12 <b>sired by Raff Empire E269</b> . Depastured QRFF187 28/09/12 to 05/12/12
13	QRFE323	Burnette E323 has as good a pedigree as you want for breeding docility and consistency. Her 3rd dam, Raff Burnette M51, produced our wonderful breeding bull Raff Ultimate U27. <b>Sells with heifer calf at foot H374 {3 germ vaccinated}</b> born 27/08/12 <b>sired by Raff Empire E269</b> . Depastured QRFE69 28/09/12 to 09/12/12
14	QRFF126	This is a young first calver that looks a little rough around the edges but sells with a handy bull calf whose sire sold to Onslow Angus last year after being used here as a yearling. <b>Sells with bull calf at foot H285 {3 germ vaccinated}</b> born 22/07/12 <b>sired by Raff Frodo F117</b> . Depastured QRFG252 29/08/12 to 31/12/12
15	QRFF144	A growthy first calver with extra neck extension and carcass potential. When she calved down she displayed great milk and udder qualities. <b>Sells with bull calf at foot H328 {3 germ vaccinated}</b> born 09/08/12 <b>sired by Raff Dazzler D353</b> . Depastured QRFD197 08/10/12 to 24/01/13
16	QRFF158	Raff Duchess F158 is a typical daughter of Diplomat who sold in 2010 for \$15,000 - they are all docile with extra substance and girth. <b>Sells with bull calf at foot H430 {3 germ vaccinated}</b> born 26/09/12 <b>sired by Raff Frodo F117</b> . Depastured QRFG252 23/10/12 to 31/12/12
17	QRFF166	There is loads of genetics with performance and punch in her pedigree. When mature she will be a heavy weighing and robust individual. <b>Sells with bull calf at foot H332 {3 germ vaccinated}</b> born 10/08/12 <b>sired by O'Neill's Prime Star 80</b> . Depastured QRFD197 08/10/12 to 24/01/13
18	QRFF171	F171 combines the industry weight bearing qualities of J&C Appeal with the high quality maternal attributes of her paternal sire SAV Bandolier. With an Explosive son at foot she is a very attractive package. <b>Sells with bull calf at foot H249 {3 germ vaccinated}</b> born 16/07/12 <b>sired by Raff Explosive E108</b> . Depastured QRFG252 28/09/12 to 05/12/12
19	QRFF214	When mature Duchess F214 will be a big Angus cow. Her sire was the 2010 Grand Champion Angus Bull at the Brisbane Royal Show when he weighed in excess of 1200 kg's. <b>Sells with heifer calf at foot H404 {3 germ vaccinated}</b> born 10/09/12 <b>sired by Raff Ego E266</b> .

Depastured QRFD197 08/10/12 to 24/01/13

- |    |  |  |
|----|--|--|
| 20 | QRFF219                                  | Lady Durham F219 is a full import from one of the four Hoff Scotch Cap cows we purchased in 2006. Her dam was incredibly fertile as an aged cow. F219 should not be overlooked as she is a genetic outcross to the mainstream Australian Angus. <b>Sells with bull calf at foot H421 {3 germ vaccinated}</b> born 18/09/12 <b>sired by Raff Ego E266</b> . Hand mated QRFE266 18/01/13   |
| 21 | QRFF235                                  | Raff Doris F235 will mature to be another large framed young quite similar in type to her half sister selling as lot 19. Her grand dam, Forres Doris P73, was re-introduced into out herd because of her depth of pedigree. <b>Sells with bull calf at foot H305 {3 germ vaccinated}</b> born 29/07/12 <b>sired by Raff Empire E269</b> . Depastured QRFG252 29/08/12 to 05/12/12  |
| 22 | QRFF239                                  | This is a nice XFactor X3 daughter that has extra girth and spring of rib. She has a good nature and a pedigree full of cows that live long. <b>Sells with bull calf at foot H373 {3 germ vaccinated}</b> born 26/08/12 <b>sired by Raff Dazzler D353</b> . Depastured QRFD197 08/10/12 to 24/01/13  |
| 23 | QRFF299                                  | With a good bull calf at foot and a pedigree with substance this lot has value. Her 3rd dam was a donor cow for a number of years and bred Raff Sampson S29 - a sire that did a great job for us. <b>Sells with bull calf at foot H407 {3 germ vaccinated}</b> born 11/09/12 <b>sired by Raff Dazzler D353</b> . Depastured QRFD197 08/10/12 to 24/01/13   |
| 24 | QRFF329                                  | This lot has a very good pedigree. Her sire is a direct Hoff import and a 3/4 brother to Hoff Limited Edition whilst all of her dams pedigree combines the best of carcass with power and substance. <b>Sells with heifer calf at foot H331 {3 germ vaccinated}</b> born 09/08/12 <b>sired by O'Neill's Prime Star 80</b> . Depastured QRFD197 08/10/12 to 24/01/13  |
| 25 | QRFF331                                  | This is the last of the cow/calf units to sell. She calved down easily at just 22 months of age and comes from a line of honest and functional cows. <b>Sells with bull calf at foot H301 {3 germ vaccinated}</b> born 26/07/12 <b>sired by Raff Frodo F117</b> . Depastured QRFG252 29/08/12 to 31/12/12  |
| 26 | QRFH434<br>QRFH437<br>QRFH438<br>QRFH439 | <b>PICK OF THE FLUSH</b> - These five heifers are from what we consider to be the flush of 2012. They are sired by the new Raff AI sire O'Neill's Prime Star 80 making them grand-daughters of the world's leading marbling sire Gardens Prime Star. These genetics are the first ever to be offered in Australia and are carcass genetics without any New Design or Precision blood. They are from one of our highest marbling and elite donor cows Raff Doris E12 whose sire sold privately in 2002 for a Queensland record of \$30,000. This is an unique opportunity as they combine the Raff breeding principles of 47 years <i>with extra 'marbling'</i> . <i>All five heifers will enter the ring with the winning bidder selecting the heifer of their choice as their purchase.</i> |
| 27 | QRFB126                                  | Raff Burnette B126 was Grand Champion Angus Female at the 2010 Sydney Royal Show. Phenotypically she is as good as you could get. We only sell her as she became a donor with many embryos expected this year out of her - however we still sell her with reluctance. Her dam is a full sister to Queensland's record priced private sale bull at \$30,000 whilst her sire held the Australian auction record at \$50,000 for a number of years. Burnette B126 has a perfect udder profile with predictability of pedigree and a proven breeding record. She must be considered for future donor duties. Depastured <b>Raff Dictator D364</b> 17/08/12 to 09/12/12.  |

28	QRFY69	This is a magnificent Angus matron with loads of capacity and substance with extra strength of muzzle yet she still remains feminine and attractive. Burnette Y69 is a half sister to the previous lot whose sire stems from some of the very best within the Angus breed. Again she only sells as we have enough progeny both on the ground and on their way through embryo work. This is a powerful Angus cow and one that must be considered. Depastured <b>Raff Dictator D364</b> 17/08/12 to 09/12/12.
29	QRFU108	If you liked either of the previous lots and missed out then here is their dam. Raff Burnette U108 is a full flush sister to the highly mentioned Raff Ultimate U27. Burnette U108 is a rising 14 year old that is still wonderful sound. She is long with tremendous strength of spine and would have been a donor here if we had not used her brother both naturally and through AI. Her dam, Burnette M51, had an impeccable calving record with 12 natural calves in her first 9 years of production {3 sets of twins}as well as 12 embryo calves also in that time. Depastured <b>Raff Dictator D364</b> 17/08/12 to 09/12/12.
30	QRFV144	Duchess V144 is a good skinned female whose grand-dam resulted from the mating of two full Angus animal imports we did in the early 1980's from America. Her pedigree is rock solid and very much stacked full of cattle that live long and stay sound. Depastured <b>Raff Domino D347</b> 16/08/12 to 24/10/12.
31	QRFX10	Admired by one of Queensland's leading Santa Gertrudis breeders when viewed as a heifer within a big mob of weaners in 2002 Raff Burnette X10 has gone on to mature into as powerful an Angus cow as you can get. She has a tremendous muzzle that then extends to the rest of her powerful body. Just four generations back is the breed matriarch Forres Burnette A22 with every cow in between just absolutely magnificent. Depastured <b>Raff Domino D347</b> 16/08/12 to 24/10/12.
32	QRFY15	This is another tremendous type of cow that is large in stature and big in performance. A full brother to her sold as the high selling bull of 2004 to Wallangra Angus. We have a very good daughter from her sired by Raff Dakota D85 that allows us to move this matron on. Hand mated <b>Raff Emblem E69</b> 13/11/12.
33	QRFB8	Raff Burnette B8 has a pedigree that excels for maternal attributes from the Burnette, Vicki and Wilcoola lines. She has good length with extra neck extension and smoothness of shoulder. Her sire was used after we viewed him the year we introduced some Merridale blood into our herd. Depastured <b>Raff Domino D347</b> 16/08/12 to 24/10/12.
34	QRFC215	Raff Burnette C215 had a really good Appeal A10 son sell in 2011 for \$8,000. This cow has good bone and muzzle with smoothness of skin. On her dam's side both Premier Julie and Burnette K75 had great longevity. Depastured Raff Freddo F143 21/08/12 to 31/12/12.
35	QRFD139	Another descendant of the famous Burnette cow family that is extremely quiet with a pedigree that is flawless. Her sire was purchased at just 11 months and bred soft and easy fleshing cattle of a moderate frame - we have used him again recently. Depastured Raff Dictator D364 17/08/12 to 09/12/12.
36	QRFE27	With her first son selling for \$23,000 at our last year's annual bull sale Doris E27 has already proved herself. Be sure to keep away from her when she calves as she is as protective a cow to newborns as we have ever had. She is moderate in stature with a really good pedigree behind her. Depastured <b>Raff Domino D347</b> 16/08/12 to 24/10/12.

37	QRFE32	Docile in nature this very good Doris female has superb pedigree merit. At over 15 years her grand dam is perfectly sound and productive having been used as a donor again this year. This is a lot that must be considered. Depastured <b>Raff Dallas D216</b> 21/08/13 to 31/12/12.
38	QRFE39	E39 is a large framed and docile cow whose dam resulted after the purchase of a flush from one of Banquets leading donor cows Eclipta Q75. She can easily be moderated as proven when she was mated to our 'marbling' sire XFactor X3 as a heifer - the resulting bull calf grew on to be soft and fleshy in a compact package. Depastured <b>Raff Dictator D364</b> 17/08/12 to 09/12/12.
39	QRFE121	Raff Burnette E121 is a functional type cow that has loads of genetic capacity. Her joining sire weighed 1172kg's at just 25 months with a 146 sq. cm EMA, 6.7% IMF scan and 15/20mm fat. Depastured <b>Raff Flash F187</b> 21/08/12 to 31/12/12.
40	QRFE150	E150 has a good skin type and simply oozes of maternal qualities. Her mating will be the ideal balancing act between her fineness and pure maternal to her joining sires shear bone, weight and power - it should be a beauty. Depastured <b>Raff Flash F187</b> 21/08/12 to 31/12/12.
41	QRFE154	E154 is a good type of female that is fleshy and easy doing with a pedigree free of any 'fancy' genetics. Her dam is an ideal type of Angus cow and produced the mother of Raff Doris W10 who gained recognition when she produced AI sire Raff Midland Z204. Depastured <b>Raff Exterminator E201</b> 21/08/12 to 31/12/12.
42	QRFE170	Raff Burnette E170 has good depth, girth and is attractive in type. Her joining sire is a flush brother to Raff Encore E110 who was sold for further stud duties last year when weighing in excess of 1300kg's. Depastured <b>Raff Freddo F143</b> 21/08/12 to 31/12/12.
43	QRFE171	This Burnette cow stems from a strong line of cows that excel for udder qualities and type. She is slick coated with a really refined front end. We have a nice daughter retained. Depastured <b>Raff Flash F187</b> 21/08/12 to 31/12/12.
44	QRFE187	A DMM Shift daughter that has more frame and stretch than most of his daughters. E187 should live long as her Duchess descendants have lived past twenty years of age with one here, Duchess F34, making it to 19 years. Depastured <b>Raff Freddo F143</b> 21/08/12 to 31/12/12.
45	QRFE259	This Doris cow is an attractive female with feminine head, smoothness of shoulder that is long and sound. She is docile in nature also. Her pedigree is great on phenotype and strong on performance. Depastured <b>Raff Emblem E69</b> 21/08/12 to 09/12/12.
46	QRFE284	If we had been AI'ing cows over the past year I would have certainly put this cow to Limited Edition as her grand dams pedigree produced the 2006 \$32,000 high selling Limited Edition son. Depastured <b>Raff Freddo F143</b> 21/08/12 to 31/12/12.
47	QRFF19	A young second calver with her life ahead that has good honest types within her pedigree. Her dam was a large framed individual and extremely quiet. Depastured <b>Raff General G252</b> 29/08/12 to 05/12/12.
48	QRFF28	Doris F28 has extra width of hip and pin that stands square. Her pedigree has a good mix of frame and growth with thickness and moderation. Hand mated <b>Raff Ego E266</b> 26/01/13.

49	QRFF84	This Duchess female is strong in maternal traits with a good skin type, moderate stature and smoothness. Her calf to joining sire should be interesting. Depastured <b>Raff Ego E266</b> 17/08/12 to 24/10/12.
50	QRFF87	The dam of this lot came about after viewing three flush sisters to her - we then purchased 4 frozen embryos of the same mating. Vicki F87 is rather different in genetic makeup to the mainstream. Depastured <b>Raff General G252</b> 29/08/12 to 05/12/12.
51	QRFF88	Light at birth equals moderate for life - Doris F88 will be breed lower birth weight calves that will, as she has, mature moderate in stature. She comes from a great cow line of easy and functional cattle. Depastured <b>Raff Ego E266</b> 17/08/12 to 24/10/12.
52	QRFF279	This is a female that has an excellent slick coat type and fine skin - so typical of her Duchess/Powerpack cow line. - her mating to Ego will only continue that trait. She is very quiet and will breed on. Depastured <b>Raff Ego E266</b> 17/08/12 to 24/10/12.
53	QRFF313	Raff Doris F313 has a great temperament whose grand dam is a full flush sister to AI sire Raff Midland Z204. This female is another cow strong in maternal traits that will breed well to moderate, thick and meaty type sires. Depastured <b>Raff General G252</b> 29/08/12 to 05/12/12.
54	QRFG50	This young Doris female is magnificent. She is docile and deep with so much substance and has always shown to be an easy doing type. Brothers to her sire have topped at \$20,000 in past bull sales here. This is a lot that must be considered. Depastured <b>Raff Ego E266</b> 17/08/12 to 24/10/12.
55	QRFG51	Burnette G51 has overall balance and eye appeal. She has plenty of natural fleshing yet has still stayed refined and feminine through the front end. Her sire and full brothers to him have bred some amazing cattle throughout Australia. Depastured <b>Raff Ego E266</b> 17/08/12 to 24/10/12.
56	QRFG71	G71 is an extremely long and angular female which, when mature, will be a heavy weighing cow. Her dam was as wide a hip to pin female as you could want with G71's sire weighing at over 1400kg's before joining last season. Depastured <b>Raff Ego E266</b> 17/08/12 to 24/10/12.
57	QRFG86	Not only is G86 a great type of female but her pedigree also is simply magnificent. She is of large frame with a great phenotype and plenty of performance. All the cows in her pedigree are sound footed and docile. She will handle any of the modern sires and must be looked at and considered. Depastured <b>Raff Ego E266</b> 17/08/12 to 24/10/12.
58	QRFG119	This female stems from a very strong maternal line that stay sound and live long and is sired by a sire that was renowned for adding shear weight. Springing to her AI joining sire she will be a good package. <b>AI'd to O'Neill's Expedition</b> {USA14761330} due 03/06/13. Depastured Raff Fortune F344 27/08/12 to 16/11/12. <i>3 germ vaccinated.</i>
59	QRFG151	Combining two of our Hoff donor cows in Lady Durham and Blackbird makes this female a very strong outcross to mainstream. She has plenty of looseness and girth to her with her sire producing last bull sales \$40,000 high seller. Depastured <b>Raff Ego E266</b> 06/02/13 to 15/03/13. <i>3 germ vaccinated.</i>
60	QRFG164	Strong in pedigree make up this young female will mature to be neat in type with a good skin and maternal qualities. <b>AI'd to O'Neill's Expedition</b> {USA14761330} due 03/06/13. Depastured Raff Fortune F344 27/08/12 to 16/11/12. <i>3 germ vaccinated.</i>

61	QRFG183	Raff Burnette G183 was a very sappy and stylish heifer as a calf. She has a good top to her with enough flesh and substance for a female of her age. Depastured <b>Raff Gangster G287</b> 27/08/12 to 16/11/12. <i>3 germ vaccinated.</i>
62	QRFG189	G189 is long and smoothly made female that combines some of the best 'proven' genetics. Her dam was retired, by accident, as a rising 14 year old this year. <b>AI'd to DMM Shift 78S</b> due 03/06/13. Depastured Raff Fortune F344 27/08/12 to 16/11/12. <i>3 germ vaccinated.</i>
63	QRFG191	Three quarters of this females pedigree is proven and powerful with the remaining 1/4 adding a splash of high carcass quality genetics. G191 will be a good type when mature as she is already showing the extra bone and substance her pedigree suggests. Depastured <b>Raff Fortune F344</b> 17/08/12 to 16/11/12. <i>3 germ vaccinated.</i>
64	QRFG199	There is a lot to like about this heifers pedigree and should be given the time to be looked at in detail. Functional and fertile are the two words that will best describe her as there are simply no holes in her. Depastured <b>Raff Gangster G287</b> 27/08/12 to 16/11/12. <i>3 germ vaccinated.</i>
65	QRFG230	Another high quality Dazzler D353 daughter that is docile with good spring of rib, girth and substance. We used her joining sire as he descends just several generations from breed matriarch Forres Burnette A22. Depastured Raff Gangster G287 27/08/12 to 16/11/12. <i>3 germ vaccinated.</i>
66	QRFG293	Herself an embryo heifer this female should certainly breed beyond herself. Her dam is one of our best Limited Edition daughters whilst her grand dam, Forres Burnette S182, is still here and perfectly sound at 15 years. Hand mated <b>Raff Ego E266</b> 28/01/13. <i>3 germ vaccinated.</i>
67	QRFG301	Moriah genetics used over Duchess lines should certainly add a little more power and bone - this female is a true balance of such genetics. She has great bone and width of pin with good docility. Hand mated <b>Raff Ego E266</b> 28/01/13. <i>3 germ vaccinated.</i>
68	QRFG308	The dam of Blackbird G308 is a full sister to our donor Blackbird F14 and herd sire Raff Ego E266. This heifer has a good skin and capacity with the inclusion of highly proven and accurate carcass genetics from her sire. She is worthy of consideration. Depastured <b>Raff Gangster G287</b> 27/08/12 to 16/11/12. <i>3 germ vaccinated.</i>
69	QRFG315	Her dam was a show cow and direct embryo import from Hoff Limited Editions grand mother whilst her sire another Hoff embryo import from the highly fertile and productive Hoff Lady Durham 3130. With such a strong pedigree she has to breed well. Depastured <b>Raff Fortune F344</b> 17/08/12 to 16/11/12. <i>3 germ vaccinated.</i>
70	QRFG318	Raff Duchess G318 is another Moriah/Duchess genetic cross that has worked pretty well. Her dam was as long a female we have bred whose previous four cows all being used as donors in our herd as far back to the mid 1980's. Depastured <b>Raff Ego E266</b> 06/02/13 to 15/03/13. <i>3 germ vaccinated.</i>

- 71 QRF325 Burnette G325 is a moderate and meaty heifers with some high paper performance animals in her pedigree. She will not be the biggest when mature but with her strength of pedigree should be a consistent breeder. Depastured **Raff Gangster G287** 27/08/12 to 16/11/12. *3 germ vaccinated.*
- 72 QRF330 Sired by a 3/4 brother to Limited Edition makes G330 quite line bred within her pedigree. We had bulls sell of similar pedigree at last years sale that performed well in their contemporaries and sold for good values. Hand mated **Raff Ego E266** 30/01/13. *3 germ vaccinated.*
- 73 QRF340 Be sure to note that this stylish Dallas D216 is from Raff Doris Y70 who produced the dam of Raff Empire E269 - one of Australia's most acclaimed show bulls of recent times. G340 has extreme pedigree merit and as a young heifer looks the part for a heifer of her age. An outstanding pedigree lot. Depastured **Raff Fortune F344** 27/08/12 to 16/11/12. *3 germ vaccinated.*
- 74 QRF350 Blackbird G350 is an XFactor daughter that combines some real performance genetics. The full sister to her dam produced last years high selling \$17,000 Raff Empire E269 'buyers choice' lot. This heifer has some strong performance traits with an outstanding pedigree for predictability. She is a interesting lot on offer. Depastured Raff Gangster G287 27/08/12 to 16/11/12. *3 germ vaccinated.*
- 75 QRF353 She is another heifer that combines two of the Hoff imports. Her dam is a full flush sister to stud sires Raff Defender D218, Danny Boy D207 and Distinction D197. These three bulls have bred industry leading progeny topping at \$30,000 to date. She is all but a genetic masterpiece. **AI'd to O'Neill's Expedition** {USA14761330} due 03/06/13. Depastured Raff Fortune F344 27/08/12 to 16/11/12. *3 germ vaccinated.*
- 76 QRF361 This Burnette female has smoothness of shoulder, a good top line and natural fleshing of hindquarter. Her maternal lineage have always reared good calves. Her sire is a direct descendant from Limited Editions grand mother. Depastured **Raff Gangster G287** 27/08/12 to 16/11/12. *3 germ vaccinated.*
- 77 QRF369 The dam of Blackbird G369 is another full sister to herd sire Raff Ego E266. This XFactor daughter has more rib, capacity and girth than the typical X3 daughter. We have already proven that the Moriah x Blackbird mating's work well. An interesting heifer. Hand mated **Raff Distinction D197** 05/02/13. *3 germ vaccinated.*
- 78 QRF378 A young female that has an excellent skin type so dominant and consistently bred from her lineage. She is a very smoothly made and complete female with genetics of high weight gaining qualities. Depastured **Raff Ego E266** 06/02/13 to 15/03/13. *3 germ vaccinated.*
- 79 QRF419 G419 is a unique genetic lot whose sire had sons selling to \$40,000 to average over \$12,000 at last years bull sale. Her dam is a milk milking cow of volume and capacity that has produced us the top performing heifers of their group by Raff Empire E269. We have a full sister retained. Unjoined. *3 germ vaccinated.*
- 80 QRF423 Since cataloging this female I have been thinking that this heifer must go into a Brahman/Brangus herd to inject the '*traditional*' Angus influence into their program. Muzzle, bone, weight, substance and capacity are words that best describe her - she even has big ears. We sell with reluctance. Unjoined. *3 germ vaccinated.*

81	QRF425	Lady Durham G425 is a magnificent young heifer of good phenotype, strong performance with extreme soundness of pedigree. A full brother here weighed 792 kg's at just over 14 1/2 months to be gaining 1.63kg/day whole of life. She was produced from a big flush so sisters are retained. Unjoined. <i>3 germ vaccinated.</i>
82	QRF427	G427 is a very nice heifer. Her dam is a full sister to the mother of Hoff Limited Edition. With most of the Hoff import females we are now joining back to Raff sires of strong maternal lines - our Raff maternal strength is what has set us up over the years and something that we never want to lose. Unjoined. <i>3 germ vaccinated.</i>
83	QRFH16	Raff Lady Durham H16 is a magnificent young heifer that, from her dams side, combines all the important traits that allow an animal to stay sound and live long. Her sire is our best and adds phenotype and absolute performance. H16 is refined and as feminine as you want that has style. Unjoined. <i>3 germ vaccinated.</i>
84	QRFH39	This is a magnificent heifer considered all but faultless. She has tremendous length and strength of spine with good width of top line, femineity and extra neck extension. We are very excited about her sire Ego E266 as his progeny calve easily and are displaying a nice maturity pattern. Unjoined. <i>3 germ vaccinated.</i>
85	QRFH50	Lady Durham H50 is another good genetic combination of Hoff and Raff bloodlines. There should be plenty of easy calving in her as on both sides all has proved very safe. Mate her to real beef bulls and you won't be disappointed. Unjoined. <i>3 germ vaccinated.</i>
86	QRFH52	A full sister to the dam of H52 produced last years \$40,000 high seller here in September sired by Raff Explosive E108. This heifer is smoothly made and offers a safe and proven genetic line. Unjoined. <i>3 germ vaccinated.</i>
87	QRFH65	Stud sire Raff Explosive E108 is a full flush brother to the dam of this lot. In June last year prior to joining he weighed 1410 kg's and must be considered a breed leading sire for his real weight gaining ability and amazing paper performance. This heifer has unlimited genetic potential. Unjoined. <i>3 germ vaccinated.</i>
88	QRFH80	Again take the time to look at this heifers pedigree as it is a beauty. This is a half sister to lot 82 and very similar in type. The older these two Ego E266 daughters become the less I want to sell them. She is long and docile with extra neck and femineity. Unjoined. <i>3 germ vaccinated.</i>
89	QRFH82	Another typically gutsy Raff Distinction daughter that will grow out to be deep and docile. Her sire is undoubtedly considered one of our best with extreme width of hip and pin, bone and weight for age. Unjoined. <i>3 germ vaccinated.</i>
90	QRFH103	This is the last of the unjoined heifers to sell that again combines Raff with Hoff genetics. She was light at birth and has good shape and hindquarter expression for her age. Her dam was a 'Pathfinder' cow in the States with a massive production record. Unjoined. <i>3 germ vaccinated.</i>

91 QRFG172 RAFF ANGUS - pen of 9 APR Angus heifers. *3 germ vaccinated.*
